RE: Request for Approval of Form and Amount of Transitional Reclamation Surety, Bryce Haas, B & C Limestone Mine, M/039/013, Sanpete County, Utah

On June 30, 2000, the Division received a Notice of Intention to Commence Large Mining Operations from Bryce Haas for his B & C Limestone Mine. This site was originally permitted as a small mining operation and expanded to a large mine status. Prior to issuing final approval for the large mine, an inspection was performed on August 2, 2001, where it was discovered that the operator had expanded to nearly double the proposed acreage of his original large mining notice.

On August 15, 2001, the Division placed the operator in non-compliance. One of the mitigation requirements was that the operator post a \$36,000 transitional surety to cover the expanded acreage, which would remain in place until a revised notice was submitted and approved. The surety may have to be adjusted either up or down depending on the final outcome of the revised notice.

On September 20, 2001, the operator provided the Division with a \$36,000 Letter of Credit, issued by Far West Bank of Provo, Utah. On November 1, 2001, we received a "Transitional Reclamation Contract."

If you are in agreement with the acceptance of the transitional reclamation surety please sign and date the Transitional Reclamation Contract. Thank you for your consideration of this request.

A Reclamation Contract is required under Utah Mined Land Reclamation Act, Sections 40-8-1 et seq., Utah Code Annotated, (1953, as amended) (hereinafter referred to as "Act") and implementing rules.

WHEREAS, Operator has exceeded the approved five (5) acre threshold for a small mining operation, R647-3-113, and Operator desires to continue mining operations for an "interim" period of not more than 12 months, upon areas already disturbed. Within 90 days of the filing of this contract and reclamation surety, the operator agrees to file a complete Notice of Intention to Commence Large Mining Operations (Form MR-LMO) describing a detailed mining and reclamation plan for continued operations at this site. The surety shall remain in full force and effect according to its terms unless modified by the Division in writing. If the form of surety expressly provides for cancellation, then, within 60 days following the Division's receipt of notice that the Surety Company intends to cancel the surety, the Operator shall provide a replacement surety in a form and amount reasonably acceptable to the Division. If the Operator fails to provide an acceptable replacement surety, the Division may order the Operator to cease further mining activities and to begin immediate reclamation of the Disturbed Area.

3. Operator agrees to pay legally determined public liability and property damage claims resulting from mining to the extent provided in Section 40-8-7(1)(e) of the Act.
4. Operator agrees to perform all duties and fulfill all reclamation requirements applicable to the mine as required by the Act and implementing rules including but not limited to, the previously accepted Small Mining Notice, as amended.
5. The Operator's liability under this Contract shall continue in full force and effect until the Division certifies 1) that the Operator has reclaimed the Disturbed Area in accordance with the Act and implementing rules, and the previously accepted Small Mining Notice, as amended, or 2) until a mining and reclamation plan for a large mining operation has been approved by the Division and the final Reclamation Contract and surety are in place.
6. Operator agrees to indemnify and hold harmless the State, Board and the Division from any claim, demand, liability, cost, charge, suit, or obligation of whatsoever nature arising from the failure of Operator or Operator's agents and employees, or contractors to comply with this Contract.
7. Operator may, at any time, submit a request to the Division to substitute surety. The Division may approve such substitution if the substitute surety meets the requirements of the Act and the implementing rules.
